

# INCREASE VOTER TURNOUT

Target frequent voters for omnichannel campaigns, including CTV & streaming services, to increase turnout

Despite the 2020 presidential election having the highest voter turnout of this century, still only 66.8% of citizens 18 years and older voted. Voter engagement is crucial if you want to drive voters to the polls. With Lighthouse-Ameribase you can get access to one of the nation's largest sources of highly-accurate consumer data, with real-time search, location and behavioral insights, to help increase turnout overall. We have the data you need to target your ideal audience in "surround sound," through multiple touch points, across direct and digital channel, including **CTV and streaming services**. According to Higher Ground Labs' 2022 report, there has been a 15x increase in political campaign spend on TV, including CTV.
